Career Objective

Pursue research focusing on the design and development of secure and next generation wireless networking infrastructures.

Research Interests

Next Generation Wireless Platforms: Design and deployment of real-world wireless testbeds to enable research in future wireless communication systems such as 5G and beyond, and Open Radio Access Networks (Open RAN).

Software Defined Wireless Networks: Application of Software Defined Networking (SDN) approach in different classes of wireless networks including wireless local area networks, mesh networks, disruption tolerant networks, sensor networks, and satellite networks.

Internet of Things (IoT): Design and development of light-weight wireless solutions for sensor networks for future applications.

Intelligent Transportation Systems: Involves the analysis of road networks using tools such as complex networks and explore hidden patterns that leads to existing problems. Further, use the analysis for the characterization, design, and development of mobility models, routing protocols, and security frameworks.

Systems Security: Analysis of different attacks on SDN architecture as well as the design and development of solutions to defend the attacks.

Complex Networks: Besides wireless networks and road networks, exploiting complex networks in analyzing any system of social importance.

Education

Indian Institute of Space Science and Technology

Doctor of Philosophy (Ph.D.)

THESIS: *Software defined disruption tolerant networks*

ADVISOR: [Prof. B. S. Manoj](#)

Feb 2014 – May 2021

Thiruvananthapuram, India

CGPA: 9.25/10

National Institute of Technology, Calicut

Master of Technology (M.Tech.) in Computer Science and Engineering (Information Security)

THESIS: *A usage control based model for multi-domain environments with distributed attributes*

ADVISOR: [Prof. Priya Chandran](#)

Aug 2009 – May 2011

Calicut, India

CGPA: 8.97/10

Mahatma Gandhi University

Bachelor of Technology (B.Tech.) in Information Technology

PROJECT: *Remote system access through universal serial bus*

Aug 2005 – Aug 2009

Kottayam, India

Percentage: 82.28%

Board of Higher Secondary Examination, Kerala

Higher Secondary Examination (HSE) in Computer Science

Brahmanandodayam Higher Secondary School, Kalady

Jul 2003 – Mar 2005

Ernakulam, India

Percentage: 91.83%

Board of Public Examinations, Kerala

Technical High School Leaving Certificate (THSLC) in Electronics

Model Technical Higher Secondary School, Kaprassery

Jun 2000 – Mar 2003

Ernakulam, India

Percentage: 81.5%

Experience

Iowa State University

*Research Assistant Professor, Department of Electrical and Computer Engineering
Center for Wireless, Communities and Innovation (WiCI)*

Feb 2025 – Present

Ames, IA, USA

Iowa State University

*Research Scientist II, Department of Electrical and Computer Engineering
Center for Wireless, Communities and Innovation (WiCI)*

Oct 2021 – Feb 2025

Ames, IA, USA

Indian Institute of Space Science and Technology

Graduate Teaching Assistant, Department of Avionics

Feb 2014 – May 2021

Thiruvananthapuram, India

National Institute of Technology, Calicut

Graduate Teaching Assistant, Department of Computer Science and Engineering

Jul 2009 – May 2011

Calicut, India

Recognitions | Scholarships | Certifications

- **IEEE International Conference on Network Softwarization (IEEE NetSoft '25)** Jun 2025
Best Paper Award Budapest, Hungary
- **Midscale Experimental Research Infrastructure Forum 2024 (MERIF '24)** Sep 2024
Best Demo Award Kansas City, MO, USA
- **IEEE Future Networks World Forum (FNWF '23)** Nov 2023
Honorable Mention for the Paper Baltimore, MD, USA
- **ACM Workshop on Wireless Network Testbeds, Experimental evaluation & Characterization (WiNTECH '23)** Oct 2023
Best Paper Award Madrid, Spain
- **Indian Institute of Space Science and Technology** Nov 2019
Outstanding Teaching Assistant Award in the Department of Avionics Thiruvananthapuram, India
- **Department of Space, Government of India** Feb 2014 – Jan 2019
Ph.D. Scholarship, Indian Institute of Space Science and Technology Thiruvananthapuram, India
- **Ministry of Human Resource Development, Government of India** Jul 2009 – May 2011
Master's Scholarship, National Institute of Technology, Calicut Calicut, India
- **Ministry of Human Resource Development, Government of India** Mar 2009
Graduate Aptitude Test in Engineering (GATE), Percentile: 96.84
- **Infosys** Sep 2009
Campus Connect Program
- **Red Hat** Apr 2007
Linux 4.0 Essentials, Linux 4.0 System Administration, and Network and Security Administration

Projects Involved

- Real-Time Liquid Wireless Networking for Data-Intensive Rural Applications** Oct 2022 – Present
- **ROLE:** Develop the infrastructure for Real-time liquid wireless networking
 - **OBJECTIVE:** Design and develop a framework for real-time data-intensive rural wireless applications using fountain codes to provide probabilistic real-time packet delivery guarantees.
 - **COLLABORATORS:** *Iowa State University, International Computer Science Institute, and Boston University*
- ARA—Living Lab for Smart and Connected Rural Communities** Oct 2021 – Present
- **ROLE:** Research Scientist; Co-lead the Software Working Group; Develop the ARA software ecosystem;
 - **OBJECTIVE:** Develop at-scale real-world experimental infrastructure for rural wireless applications.
 - **COLLABORATORS:** *Iowa State University, Ohio State University, International Computer Science Institute, University of California Irvine, and industry partners*
- OPERA: An Open-Source Ecosystem for Broadband Prairie** Sep 2022 – Aug 2024
- **ROLE:** Develop the open-source software framework for OPERA
 - **OBJECTIVE:** Provide leadership (in terms of organization, partnership, and infrastructure) in building open-source ecosystem in addition to contribute toward open source software, open source hardware, and open source datasets.
 - **COLLABORATOR:** *Iowa State University*
- MICRONet—Mobile Infrastructure for Coastal Region Offshore Communications & Networks** May 2014 – Aug 2017
- **ROLE:** Graduate student
 - **OBJECTIVE:** Provide wireless mesh network based offshore communication platform for fishermen at sea.
 - **COLLABORATORS:** *Indian Institute of Space Science and Technology (IIST), Amrita University, Indian Institute of Information Technology and Management - Kerala (IIITM-K), and Information Technology Research Academy (ITRA)*
- IIST MeshNet: A Programmable Hybrid Wireless Mesh Network Testbed** Mar 2013 – Mar 2016
- **ROLE:** Graduate Student
 - **OBJECTIVE:** Design and build a software defined wireless mesh network testbed for wireless research at IIST.
 - **COLLABORATOR:** *Indian Institute of Space Science and Technology (IIST)*

Software Developed

1. **OpenFlow Software Switch with Controlled Buffering**
OBJECTIVE: Enable an SDN switch capable of controlled buffering of packets in order handle link disruptions in software defined wireless environments.
2. **Software Defined Optimized Link State Routing (SD-OLSR) Protocol**
OBJECTIVE: Provide an automated SDN resource discovery and self-configuration scheme for software defined wireless environments involving mobile switches and controllers.
3. **Urban Delay Tolerant Network Simulator (UDTNSim)**
URL: <https://github.com/4sarathbabu/UDTNSim>
OBJECTIVE: Design and develop mobility models and routing protocols for ad hoc vehicular networks in real-world road network environments and analyze the performance.

- IEEE Recent Advances in Intelligent Computational Systems (RAICS) **Dec 2015**
- 7th International Conference on COMMunication Systems & NETWORKS (COMSNETS) **Jan 2015**

Talks | Workshops | Tutorials

- TALK: “*Real-World Experimental Testbed for 5G and Beyond Communication Systems*” **Oct 2024**
VENUE: IEEE Student Branch, IIST *Thiruvananthapuram, India*
- TUTORIAL: “*Introduction to ARA Wireless Living Lab for Smart and Connected Rural Communities*” **Sep 2024**
VENUE: Midscale Experimental Research Infrastructure Forum (MERIF '24) *Kansas City, MO, USA*
- TUTORIAL: “*ARA Wireless Living Lab for Smart and Connected Rural Communities*” **May 2023**
VENUE: Midscale Experimental Research Infrastructure Forum (MERIF '23) *Boston, MA, USA*
- TALK: “*WiCI & ARA: Advancing Frontiers of Wireless Innovation in Rural Broadband*” **Mar 2022**
VENUE: Friday Activities at Noon (FAN), Iowa State University *Ames, IA, USA*
- TALK: “*Type-based Analysis of Road Networks*,” **Sep 2020**
VENUE: Avionics Ph.D. Talk Series, Department of Avionics and IEEE Student Branch, IIST
- WORKSHOP: “*Programming in Python*” **Oct 2018, Aug 2019**
VENUE: IEEE Student Branch, IIST *Thiruvananthapuram, India*
- WORKSHOP: “*L^AT_EX: An Introduction*” **Mar 2018, Mar 2019**
VENUE: Conscientia, IIST *Thiruvananthapuram, India*
- WORKSHOP: “*Introduction to Software Defined Networking*” **Oct 2016**
VENUE: AV484 Wireless Mesh Networks, IIST *Thiruvananthapuram, India*

Technical Skills

- PROGRAMMING LANGUAGES: C, C++, Python, Bash Shell Scripting
- DOCUMENTATION & EDITORS: \LaTeX , GNU Emacs
- PLOTTING & VISUALIZATION: Gnuplot, TikZ, Inkscape, draw.io
- OPERATING SYSTEMS: Linux, TinyOS
- CLOUD: OpenStack
- HYPERVISORS/CONTAINERIZATION: VirtualBox, Docker
- DATABASE MANAGEMENT SYSTEM: MariaDB, MySQL, SQLite
- SOFTWARE DEFINED NETWORKING: OpenFlow, Open vSwitch, Ryu, POX
- SIMULATORS: UDTNSim, SUMO, Mininet, STK
- LANGUAGES: Malayalam (Native), English
